Today I met a great new friend
in the company and the company so the company so the company so
the company so the company so the company sadness

Who knew me right away
would be an enron corp. and the company sadness and the company
sadness and the company sadness and the company sadness

it was funny how she understood
a companion to the company and the company so the company so the
company so the company so the company sadness

All I had to say is
an opening to the company and the company so the company so the
company so the company so the company so the company

She listened to my problems
of the company so the company so the company so the company so
the company so the company sadness and the company

She listened to my dreams
of the company and the company so the company so the company so
the company so the company sadness and the company

We talked about love and life
the company so the company so the company so the company so the
company so the company sadness and the company sadness

She'd been there, too, it seems
to see the company that will be ana petponde the company so the
company so the company so the company so the company

I never once felt judged by her
for the company and the company so the company so the company so
the company so the company so the company sadness

She knew just how I felt
to the company and the company so the company so the company so
the company so the company so the company sadness

She seemed to just accept me

the company and the company so the company so the company so the
company so the company so the company sadness

And all the problems I'd been dealt

to see the compensation of the company and the company so the
company so the company sadness and the company seadne

She didn't interrupt me

to the company and the company so the company so the company so
the company so the company so the company sadness

Or need to have her say

the company and the company so the company so the company so the
company so the company sadness and the company sadness

She just listened very patiently

and the company so the company so the company so the company so
the company sadness and the company sadness

And didn't go away

to the company and the company so the company so the company so
the company so the company so the company sadness

I wanted her to understand

the compensation from the company and the company so the company
so the company sadness and the company sadness

How much this meant to me

to the sea io the company and the company so the company so the
company so the company so the company so the company sea

But as I went to hug her

a companion to the sea io the company and the company so the
company so the company so the company so the company

Something startled me

the company seating the company so the company so the company so
the company sadness and the company sadness

I put my arms in front of me

the companion that would be an enron company the service of the company so the company so the company sadness

And went to pull her nearer

to the sea is the sea is the company and the company so the company so the company so the company so the company

And realized that my new best friend

to the company and the company seating the company so the company so the company so the company sadness and the company

Was nothing but a mirror

of the company so the company so the company so the company so the company sadness and the company sadness

We made some edits for clarity,

```
changes_made = {
    "conpeniet" : "companion",
    "seadnes" : "sadness"
}
```

The model was only trained with 2000 examples for few epoches because we were on a tight schedule :)
